

Minelap Fos 12

Concentrated Mineral Premix

REG. SAGARPA Q-2083-070

FORMULA

Guaranteed analysis (minimum) 12.00%

Phosphorus 13.00%

Calcium 15.60%

Chlorine 10.40%

Sodium 0.60%

Magnesium 0.30%

Sulfur 0.30%

Iron 0.12%

Zinc Manganese 0.12%

Copper 0.03%

Cobalt 50.00 ppm Iodine 30.00 ppm

Selenium 3.00 ppm

PRESENTATIONS

25 kg sacks

INDICATIONS

Minelap Fos 12 is indicated for the treatment and prevention of all diseases caused by mineral deficiencies of livestock:

Cattle

Reduces infertility problems; Improves body development; Reduces the incidence of offspring weak or dead at birth; Improves feed conversion; It helps in obtaining better meat quality; Decreases non-infectious abortions; Avoid the problems of milk fever and other metabolic alterations.

Sheep and goats

Improve fertility; Improves the performance of wool, meat and milk; The incidence of infectious and metabolic problems; Decrease the number of weak offspring.

Dosage and method of administration

It can be administered orally at free access or mixed with common salt in a proportion of Minelap Fos 12: Common salt of 1: 2 or 1: 4 .

That is, 1 kg of Minelap Fos 12 for every 2 kg of common salt 1 kg of Minelap Fos 12 for every 4 kg of common salt. It can also be administered as an ingredient of the concentrated feed at a ratio of 1% ie 10 kg of Minelap Fos 12 for each ton of finished concentrated feed.

Withdrawal time

Because it is a food supplement with 100% natural ingredients, there is no need to remove the product of livestock feed before slaughter.

ROUTE OF ADMINISTRATION

Oral

WARNING
